JOB'S EXPERIENCES

CV. RC Electronic (Digital by RC)

Fullstack Web and Mobile Developer

- As a Fullstack Web and Mobile Developer, my primary task revolves around crafting and maintaining web and mobile applications. I'm dedicated to implementing new features and fine-tuning performance to enhance user experiences.
- Collaborating closely with development and design teams, I excel in translating UI/UX designs into functional, responsive code. Effective communication with project management and relevant stakeholders is key in my workflow.
- Leveraging my expertise in HTML, CSS, JavaScript, PHP (on the server-side), and database management, I aim to innovate and create cutting-edge tech solutions.
-

SKILLS

Client-side:
